1. [] Dr. Charles H. Reichardt of the Atomic Energy Commission advised that Jack Rosen of the Joint Committee on Atomic Energy had indicated the Joint Committee (staff?) was not completely happy about the information they were receiving and indicated that a letter might be forthcoming on this subject. Reichardt will discuss further with Don Chamberlain with a view that we might raise the general point with John Conway, the Staff Director of JCAE.

2. [] Met with David Battle, on the staff of the House Select Committee on Government Research, to discuss their request for information in connection with the Committee's current study on security clearance programs, particularly as they relate to research and development. The Committee Counsel, Mr. Naftalin, sat in with us for a brief period. I recounted the difficulties which the Agency would encounter in making a contribution of any significance because of the security aspects as far as the Agency is concerned. Mr. Battle said this would be a narrative report rather than a statistical one and wondered if we could suggest the inclusion of a brief paragraph which would indicate Committee coverage of the point with respect to the Agency but would not divulge classified information. I expressed reservations on this but indicated I would look into the matter further.

Sourwine offered to provide us with certain information with regard to narcotics traffic from Communist China if the Agency was interested. He took into consideration the fact that we might already be in possession of it. I told him we would look into the matter and be in touch.

Sourwine said one of the Subcommittee members had asked him to try to obtain a copy of a report referred to in a WASHINGTON POST article of 29 October. This had to do with a report on the Khrushchev matter being made available to the Italian Communist Party.
